

Use your **creativity** to celebrate

DISTINGUISHED TRAILBLAZERS IN THE SCIENCES

Pre-college students (5th-12th graders) are invited to highlight scientists and engineers who have made a meaningful impact to nuclear science, accelerator science, and accelerator engineering and deserve recognition.

Submission deadline: **Tuesday, November 25, 2025**
Submit a 1-3 minute video of an original:

- oral presentation
- recitation of a personalized poem
- musical performance
- drawing or painting
- poster
- other artistic expression

PRIZES: The top three winners from each category (grades 5-8 and grades 9-12) will receive prizes. No two prizes will be given for the same distinguished trailblazer.

For more information—including links to previous winners—and to enter, visit frib.msu.edu/dts

This contest is sponsored by Michigan State University (MSU), the Facility for Rare Isotope Beams (FRIB), and the Student Training and Engagement Program for Undergraduates in Physics (STEP-UP). Submitted entries must be contest entrants' original works. Applicable copyright guidelines apply if other content is incorporated. If entries violate preexisting copyright(s), they will not be posted on FRIB/MSU channels.
